

QRI-002

4x 4A Relay/Digital Input

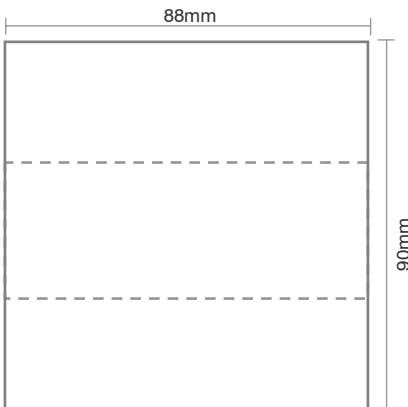

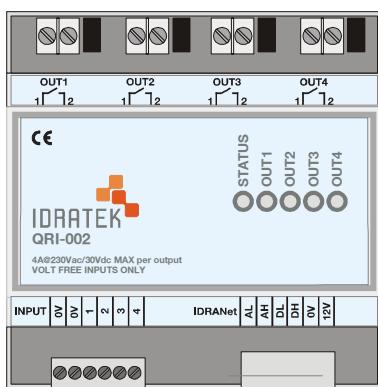

(5M DIN Enclosure)

The QRI-002 module provides basic digital input/output elements suited to functions such as lighting control, security system sensors/alarms interfacing, and general purpose medium power mains rated switching activities. All four output channels are protected by 4A fuses. This module also offers a pulse counting feature on digital inputs

Features - Physical

- 4 x Relay Outputs (SPNO 4A/230Vac/30Vdc with Fuse protection)
- 4 x Relay LED Indicator Outputs
- 4 x Non-Isolated Digital Inputs (Filtered)

Features - Functional

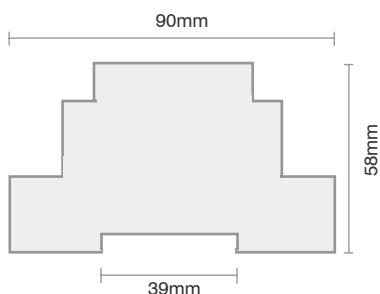

- All input and output states can be interrogated at any time
- Highly flexible static output state modification
eg. WRITE/SET/CLEAR/TOGGLE any group or individual
- Module start-up output states are user programmable
- Powerful programmable dynamic output functions include:
 - Single shot: Delay, activity time, post activity state
 - Toggle: Period, duration
 - PWM: Mark, space, duty cycle
- All Inputs can provide independent event triggers with mode programmable trigger gating:
Eg: trigger on High->Low, trigger on Low->High, trigger on either transition, trigger and latch
- Module Initialise trigger
- Each event trigger can generate a pre-defined response and/or several user programmable responses
- Independent Pulse counting features on all inputs (eg. for connection to suitable utility meters)
- In-situ reprogrammable firmware
- Status indicator LED

Electrical

- Operating voltage 12-15V DC
- Current consumption 14mA (nom), 108mA (max)
- 0V Reference provided for digital inputs
- Switching output capacity 4A/230Vac/30Vdc per channel
- Relay/digital isolation 4KVac 1min @50/60Hz, 8KV impulse

Environmental

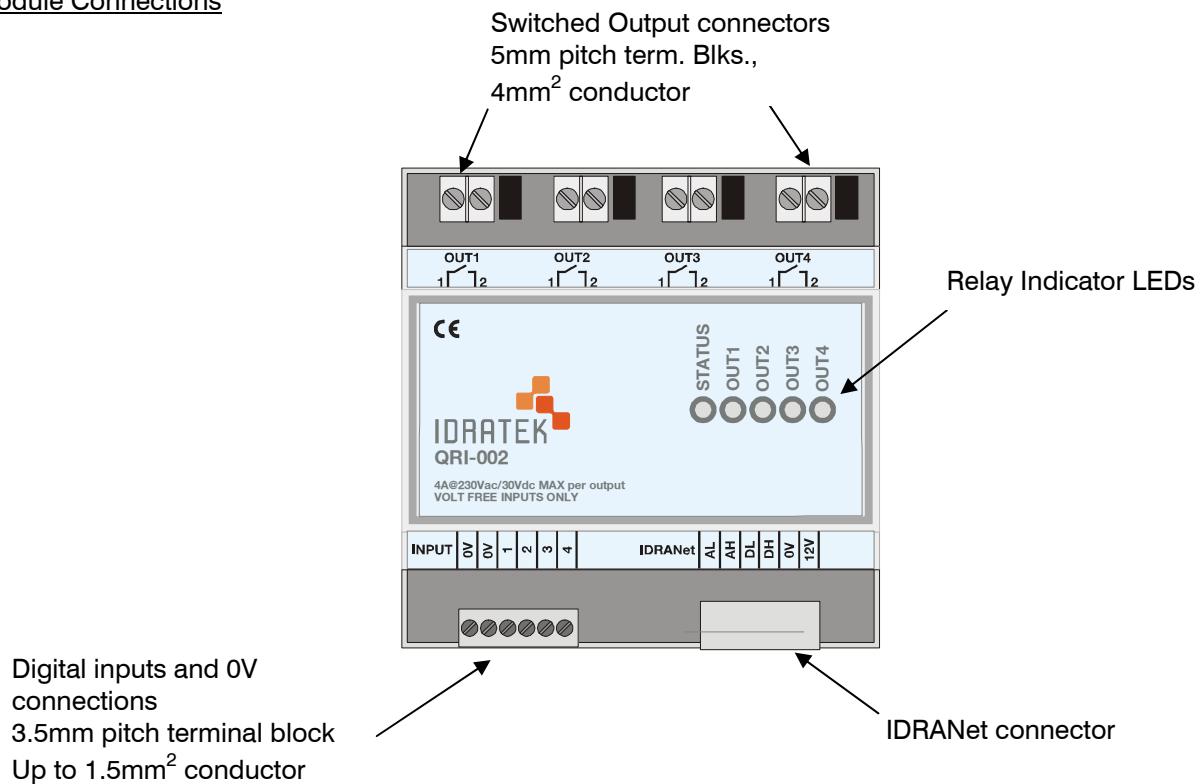

- Operating temperature -10°C to +45°C
- Operating humidity 5% to 85% RH (non-condensing)

Mechanical

- Designed to fit standard 35mm DIN rail (5M wide)
- Switched connections via 5mm pitch terminal block, up to 4mm² conductor cross section.
- Digital input connections via 3.5mm pitch terminal block, up to 1.5mm² conductor cross section.

Module Connections

Example connectivity
